SUBJECT : **GUIDANCE ON THE UPLOADING OF THE WINS DATA FOR SY 2022-2023 AND SY 2023-2024 UNDER THE NEWLY ENHANCED ONLINE MONITORING SYSTEM (e-OMS)**

DATE : **February 02, 2024**

The Department of Education (DepEd) Order No. 10, s. 2016 or the Policy and Guidelines for the Comprehensive Water, Sanitation and Hygiene (WASH) in Schools (WinS) Program defines the quality standards for water, sanitation, hygiene, deworming, and health education. DepEd, through the Bureau of Learner Support Services-School Health Division (BLSS-SHD), crafted this policy in order to promote correct hygiene and sanitation practices among school children and a clean environment in and around schools to keep learners safe and healthy. The WinS Program is implemented through an integrated system known as the **Three-Star Approach (TSA)** designed to support monitoring, quality assurance, and performance recognition, as stipulated in **DepEd Memorandum No. 194, s. 2018** or the **Implementing Guidelines to DepEd Order No. 10, s. 2016** (Policy and Guidelines for Comprehensive Water, Sanitation and Hygiene in Schools Program). The WinS TSA puts a premium on both the improvement efforts of the school community and the results of those efforts.

After years of WinS policy implementation, DepEd and its development partners have agreed on the necessity of integrating the WinS Online Monitoring System (OMS) into the Basic Education Information System (BEIS). In this regard, the BLSS-SHD, in close coordination with GIZ [Deutsche Gesellschaft für Internationale Zusammenarbeit], UNICEF (United Nations Children's Fund), and Save the Children Philippines, is amending DM 194, s. 2018 to reinforce and strengthen the WinS Program monitoring and implementation by:

SHD VBR/02052024

coordination with GIZ [*Deutsche Gesellschaft für Internationale Zusammenarbeit*], UNICEF (United Nations Children's Fund), and Save the Children Philippines, is amending DM 194, s. 2018 to reinforce and strengthen the WinS Program monitoring and implementation by:

- a. ensuring that the issues and concerns on WinS data and WinS monitoring can be addressed;
- b. enhancing the interface and navigation experience of the coordinators by incorporating more user-friendly features on the Wins Online Monitoring System (OMS);
- c. updating the process flow in navigating the Enhanced OMS (E-OMS); and
- d. providing flexibility for changes in technology and upgrading of platforms and systems used in WinS Monitoring.

In this regard, the following annexes shall be used as reference or guide for the uploading of the needed WinS data for the current school year (SY) covering the **SY 2022-2023** and **SY 2023-2024**:

- a. **Annex A:** WASH in Schools Enhanced Online Monitoring System User's Manual for Schools (see Attachment 1 for details); and
- b. **Annex B:** WASH in Schools Enhanced Online Monitoring System Administrator's Manual for Schools Division IT Officer and School ICT Coordinator (see Attachment 2 for details).

Further, keeping in mind the change in the opening of the school year, the integration of the enhanced OMS into the BEIS, and pursuant to DM 194, s. 2018, the uploading of WinS data for **SY 2022-2023** in the e-OMS shall be completed not later than **February 15, 2024** while for **SY 2023-2024**, the uploading shall be open from **February 20, 2024** to **May 31, 2024**.

Moreover, as articulated in the WinS policy, DepEd recognizes the invaluable support of stakeholders in achieving the objectives of learning and health outcomes via a comprehensive school-based implementation of the WinS program. As such, the WinS policy strongly encourages and supports various governance levels to engage its partners and key stakeholders to strategically participate in program management and implementation.

While most schools find ways to intensify and identify potential partners to support its program implementation, which includes but not limited to, establishing WASH facilities like sex-segregated toilets, this Office respectfully reiterates the following:

- a. While DepEd applauds local initiatives to promote gender-responsive basic education per DepEd Order 32, s. 2017, the WinS policy ensures the provision of sex-segregated toilets as one of the minimum requirements (crucial indicators) for a school to reach at least a star level;
- b. DepEd strongly prohibits any personnel or official to engage in any form of financial solicitation or donations from any individual or organization to improve the WASH conditions and/or compliance of the schools to WinS standards;
- c. compliance to WinS standards to improve star level requires creative utilization of available resources that will not require any school to spend beyond the allocated program funds of the Department;

- d. the WinS Three-Star Approach (TSA) is a system used to monitor, quality assure, and recognize the efforts of schools and should not be used for competition between and among schools;
- e. **DepEd Memorandum 13, s. 2021** or the "*Designation of WinS Coordinators in the Department of Education Regional and Schools Division Offices*" officializes the coordinatorship at the regional and schools division offices. In the absence of a separate non-teaching personnel facilitating the program, the school head shall fulfill the role as the Chair of the WinS Technical Working Group (TWG) at the school level. WASH IN SCHOOLS ENHANCED ONLINE MONITORING SYSTEM USER'S MANUAL FOR SCHOOLS

1. INTRODUCTION

This manual is intended for the person in charge of maintaining the WinS Monitoring System in the School. It contains instruction on how to input data, generate the reports, and upload the data into the online system.

The WinS Monitoring System is composed of the paper-based WinS Monitoring Form which will be accomplished by the schools, the Excel-Based WinS monitoring System which will be used to encode data from the monitoring form, and the WinS Online Monitoring System which will be used to upload the data from the Excel-Based System and generate aggregated reports for use in the Division, Region and National Levels.

The latest version of the Monitoring Form, Excel-Based System and Online Monitoring System can now be accessed at <https://oms.wins.deped.gov.ph> .

Note: Uploading via <http://deped-wins.sysdb.site> is no longer an option.

2. EXCEL-BASED WINS MONITORING SYSTEM

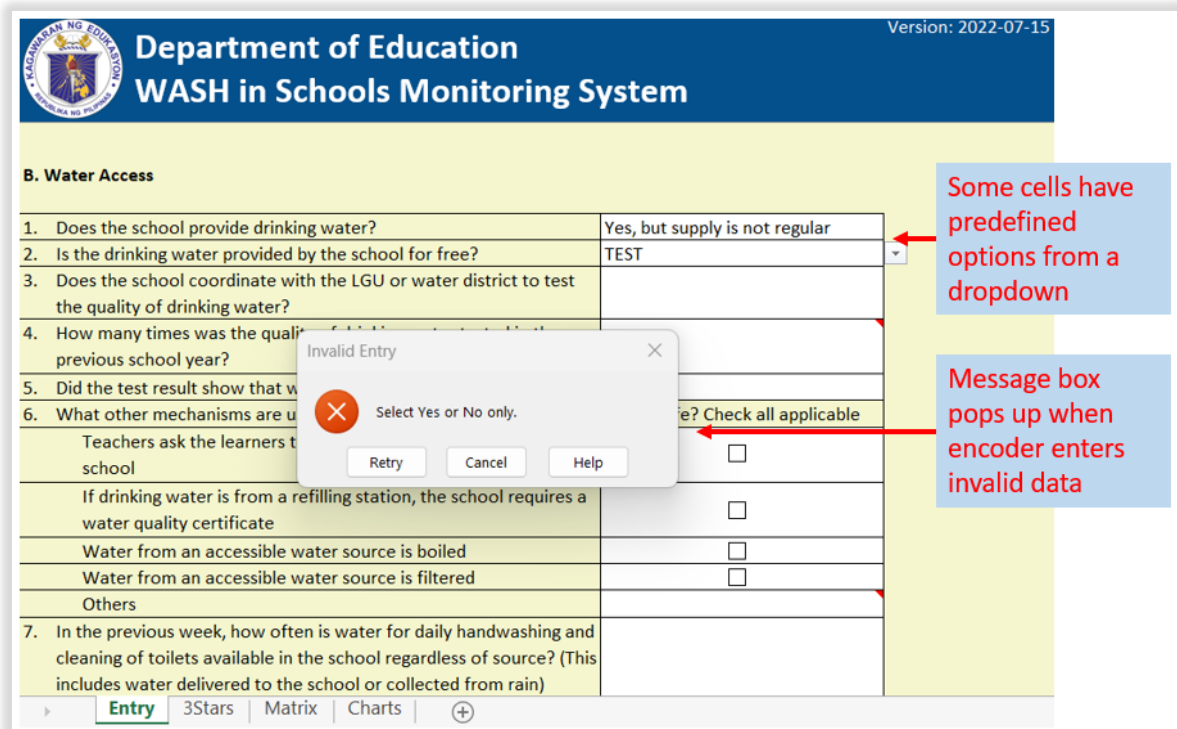

The Excel-Based WinS Monitoring System will be used to encode data from the monitoring form. The system can be opened using Excel 2007 and above. Each school shall have one file containing data for one school year.

2.1. Entering data in the Excel-Based WinS Monitoring System

The data entry module of the Excel-Based System can be access by clicking on the “Entry” worksheet found in the lower left section of the screen. The user can only encode data in cells which are colored white. The user can click the “Tab” of “Enter” keys to move to the next cell in the system.

Certain cells in the system have predefined options which the user needs to select. To enter data for these cells, the user has to click on the dropdown arrow which will appear when the cell is activated and select the appropriate value. Entering invalid values will result in a message box warning the user that the data entered is no valid. In order to proceed with encoding the data, press the “Cancel” button and enter the correct data. There are also cells which require numeric values such as enrolment data. These cells will not accept letters or special characters.

2.2. Accessing the Reports in the Excel-Based WinS Monitoring System

The WinS 3-Star Matrix for School can be accessed by clicking on the “Matrix” worksheet found in the lower left section of the screen. It provides an overview of how the school is performing in the 40 WinS indicators. The performance is color coded with Red being the lowest at 0 star, followed by Yellow at 1 star, Green at 2 stars and Blue at 3 stars. Ideally a school will target to move the lowest performing indicators to the next level in order to improve the quality of WinS implementation.

Clicking on any of the indicators will bring the user to the WinS 3-Star Report for Schools which shows the detailed milestones that a school needs to achieve in order to reach the national standard at the third star. The result found in this report are based on the information encoded in the data entry module of the system.

The WinS 3-Star Report for schools can be accessed by clicking on the “3Stars” worksheet found in the lower left section of the screen. It provides a detailed view of all the 40 WinS indicators and the milestones that a school needs to achieve in order to reach the national standard. A check in the report would signify the rating for a particular indicator. In the example below, the school has already met the criteria for 2 stars for W.S1-1 which is the indicator for Safe Drinking Water. The system will automatically provide the scores for each of the indicators based on the data encoded in the data entry module and compute the overall rating of school which, in this case, is one star.

In case the school needs to make changes in the data, update the Excel-based System first. Then, repeat the process of uploading the updated file. This will overwrite the old data with the latest one. The school can make changes in the online monitoring system as long as data for the school year has not yet been finalized.
