POLICY GUIDELINES ON THE IMPLEMENTATION OF THE REVISED SCHOOL-BASED MANAGEMENT (SBM) SYSTEM

I. RATIONALE

The implementation of the Republic Act (RA) 9155, otherwise known as the *Governance of Basic Education Act of 2001*, provides direction for decentralizing the system of management and governance at the school level and further recognizes the role of local government units and other stakeholders as partners in education service delivery.¹ The said Republic Act allows for an innovative approach to empower school heads and their personnel to collaborate with the community in ensuring the delivery of quality basic education and achieving improved learning outcomes. School heads, in consultation with internal and external stakeholders, are provided the opportunity to address and decide on issues and concerns directly involving day-to-day school operations.

In 2012, the Department of Education (DepEd) provided the parameters for exercising decentralized decision-making at the school level through the DepEd Order (DO) No. 083, s. 2012, the *Implementing Guidelines on the Revised School-Based Management (SBM) Framework, Assessment Process, and Tool (APAT)*. In this policy, SBM, as a reform thrust, was broadened to better highlight the learners as the center of SBM practice and to encompass the diverse realities of learning contexts uniquely occurring within specific geographic, social, cultural, economic, political, and environmental make-up in societies.

However, in the course of institutionalizing SBM, various implementation gaps emerged. Across Regions, Schools Divisions, and Schools, these areas for improvement were common, yet differentiated due to contextualized practices. Practitioners at the school level contended that its implementation was laden with voluminous and repetitive documentary requirements resulting in additional tasks assigned to the teaching personnel. These documentary requirements were used as means of verification to ascertain the SBM level of practice based on a scoring system. Similarly, the operationalization of the scoring system became challenging due to the exercise of an arbitrary approach to determining the outcome indicators that would support the level of practice declared by schools.

In response to the implementation concerns, a review commenced to further identify other policy issues. In the review, the need to update the SBM framework became apparent. Recently, innovative education programs, projects, and activities have been introduced and taken root in the Philippine education system in response to the current

¹ Department Order (DO) No. 083, s. 2012, *Implementing Guidelines on the Revised School-Based Management (SBM) Framework, Assessment Process and Tool (APAT)*

global and local trends. People effectiveness frameworks have also been issued to complement organization effectiveness in achieving organizational success. These developments justified the pursuance of policy development.

The updating of the policy provides a definitive understanding that SBM is the **gateway to school effectiveness**. The practice of SBM is the preparation phase in which all schools are given an equitable opportunity to hone their intrinsic motivation to continuously improve. It is through this appreciation of the linkage between SBM and organizational success that schools learn how to endeavor for excellence. Furthermore, the updated guidelines **enhance the commitment of education stakeholders** to their responsibilities and accountabilities in realizing improved learning outcomes.

Another key feature describes a **broader appreciation of rewards and recognitions**. While it is a fact that extrinsic rewards and recognitions are aspired by organizations, the Department also recognizes the importance of organizational introspection as a strong foundation for sustainable school improvement. SBM is designed to nurture the intrinsic motivations of schools which shall eventually open opportunities for extrinsic rewards.

A **revitalized approach to the provision of technical assistance** is also advocated in this policy. By clarifying the purpose of this mechanism, the Department guarantees an equitable provision of support that is evidence-based, appropriate, and relevant.

With the DepEd Vision, Mission, and Core Values (VMVs) playing an important role in **providing a common goal**, all schools shall have access to an attainable long-term objective that shall guide them to reach organizational success, regardless of their varying conditions.

II. SCOPE OF THE POLICY

All public schools in the Philippines shall adopt and implement the revised guidelines on School-Based Management. This policy covers the scope of the roles and responsibilities of the Schools Division Offices, Regional Offices, and the Central Office in ensuring the institutionalization of SBM in all public schools.

All private schools are strongly encouraged to adopt and implement this policy.

III. DEFINITION OF TERMS

For this policy, the following terms are defined as follows:

1. **Community Learning Center (CLC)** - a physical space to house learning resources and facilities of a learning program for out-of-school children in special cases and adults. It is a venue for face-to-face learning activities and

other learning opportunities for community development and improvement of people's quality of life²

2. **Community of schools (a.k.a. cluster of schools)** - a group of schools that are geographically contiguous and brought together to improve learning outcomes³
3. **Continuous improvement (process)** - a methodology to continually assess, analyze, and act on the performance improvement of key processes and service delivery, focusing on both stakeholder needs and the desired performance⁴
4. **Learner (pupil or student)** - any individual, regardless of age, sex, gender, disability, ethnicity, culture, and religion, seeking basic literacy skills and functional life skills or support services, and enrolled in basic education to enhance his/her knowledge, skills, and values for the improvement of the quality of his/her life and develop his/her potentials⁵
 - i. **Adults** - Filipinos ages 18 years old and above who were not able to begin or continue basic elementary or secondary education in formal school⁶
 - ii. **Out-of-School Children in Special Cases** - Children of official school age who are not enrolled in elementary or secondary school due to special cases such as economic, geographic, political, cultural, or social barriers, including learners with disabilities or conditions, indigenous peoples, children in conflict with the law, learners in emergency situations, and other marginalized sectors⁷
5. **School** - an educational institution, including school-based CLCs under the control and supervision of the Department of Education, undertaking educational operations with a specific age group of pupils or students pursuing defined studies and defined levels, receiving instructions from teachers, usually located in a building or group of buildings in a particular physical or cyber-site⁸

A school's basic internal composition consists of its teaching, teaching-related, non-teaching personnel, and other internal stakeholders.

6. **School-Based Management (SBM)** - the decentralization of decision-making authority from central, regional, and division levels to the individual schools,

with the intent of bringing together school heads, teachers, learners, as well as parents, the local government units, and the community at large to improve learning outcomes through effective schools⁹

7. **School community** - the immediate basic political unit where the school is physically situated, with reference to its catchment area, i.e., the area within a two-kilometer (2-km) radius, and one-kilometer (1-km) radius from any existing public school in rural and urban areas, respectively¹⁰

A school community may also collectively refer to the various internal and external stakeholders who are invested in the welfare and continuous improvement not only of the school system, but also of the immediate barangay, municipality, or city where the school belongs.

8. **School head** - the person responsible and accountable for the administrative management and instructional supervision of the school or cluster of schools. In the absence of a principal, this concept shall refer to the Teacher-in-Charge, Officer-in-Charge, Master Teacher, or other persons officially designated as school head by the Schools Division Superintendent¹¹
9. **School personnel** - a teaching, teaching-related, or non-teaching staff who is assuming roles and responsibilities in the day-to-day operations of the school
10. **Stakeholder** - any person, school, recognized Parent-Teacher Association (PTA), Local Government Unit (LGU), and other organizations that has/have professional or civic interests or concerns for the interest of the schools and their students¹²

- i. **Internal stakeholder** - anyone who is directly and immediately involved in or affected by the daily operations of the school

Internal stakeholders include the learners and school personnel.

- ii. **External stakeholder** - anyone who is not directly involved in or affected by the daily educational operations of the school but expresses his/her stakes in the larger educational system and community dynamics through the extension of support to school programs, advocacies, and other undertakings.

External stakeholders may include parents and guardians, community members, local government units, civil society organizations, other national government agencies and government-owned and controlled corporations,

IV. POLICY STATEMENT

This Policy on School-Based Management is in line with the provisions of the Republic Act (RA) 9155. As such, schools, their personnel, and community stakeholders are accorded the opportunity to collectively plan and decide on their delivery of quality basic education, achievement of learning outcomes, and transformation into effective organizations.

Moreover, this policy serves as an enabling mechanism to address the challenges in basic education. The effective and efficient implementation of the SBM shall contribute to realizing holistically developed Filipino learners with 21st-century skills who are Maka-Diyos, Makatao, Makakalikasan, and Makabansa, aligned with the sector outcome that is the Basic Education Filipino learners have the physical, cognitive, socio-emotional, and moral preparation for civic participation and engagement in post-secondary opportunities in their local, national, and global communities.¹⁴ Likewise, the implementation of the SBM shall further contribute in achieving the national goal, which is "All Filipinos are able to realize their full potential and contribute meaningfully to a cohesive nation."¹⁵

All schools shall endeavor to cultivate a culture of continuous improvement. Alongside this, schools are expected to regularly undergo self-assessment using the SBM self-assessment checklist for purposes of progress monitoring and evaluation.

V. GUIDELINES AND PROCEDURES

The **continuous improvement process** is a fundamental anchor in SBM that ensures the transformation of all schools into effective organizations. The continuous improvement process nurtures an ideal school culture that promotes school self-reflection, self-management, and self-improvement.

Self-reflection pertains to understanding a school's current situation by describing the roots of issues, concerns, and areas for improvement and identifying responsive courses of action. Learning is the result of self-reflection.¹⁶ It allows the school to have a broader perspective of its situation which aids in the development of strategies that shall address

gaps, and consequently, the school shall have a deeper understanding of its own behavior.¹⁷

Self-management pertains to planning, organizing, leading, and managing resources to ensure the attainment of organizational goals.¹⁸ It also means the ability of schools to continuously learn new ways to support improvement efforts and expand community networks for sustainable partnerships.

Self-improvement enhances the capacity to address problems, refine processes and procedures, innovate on the delivery of services, and continuously apply effective and efficient practices in school operations. Self-improvement is a purposive approach to initiating educational reforms that aim to enhance learning outcomes as well as strengthen the school's capacity for managing change.¹⁹

SBM aims to achieve both people and organization effectiveness in realizing organizational success. SBM seeks to sustain improvements in the multi-faceted areas of school operations. The school head harnesses professional competencies to meet the challenges in management and governance.

Thus, the guiding principles applicable to school heads as stipulated in the *Philippine Professional Standards for School Heads*,²⁰ (PPSSH) are consistently aligned in the practice of school-based management.

A. Principles

The SBM as an organization effectiveness framework and the PPSSH as a people effectiveness framework have common and shared principles which are summarized as follows.²¹

Learner-centered and Inclusive. Learner-centered and inclusive education is needs-based and rights-based, learning-focused, developmental-stage appropriate, gender and culture-sensitive, environmentally safe, and accessible.

This also means that a conducive learning environment is maintained to support the teaching and learning process. The conditions in school are made free of and protected from discrimination, exploitation, abuse, violence, and bullying which "may be based on any ground such as age, ethnicity, sex, sexual orientation and gender identity, language, religion, political or other opinion, and national or social origin,"²² among others.

²² Department Order (DO) No. 040, s. 2012, DepEd Child Protection Policy

Strategic Planning. A network of leadership and governance guides the education system to achieve its shared vision, mission, and goals making them responsive and relevant to the context of diverse environments. By planning strategically, improvement efforts are made more evidence-based and decisions are well-informed with the responsible use of school-community data and resources.

Leadership and Governance. Setting directions is crucial in realizing goals for the benefit of learners. This principle guides internal and external stakeholders in achieving a shared vision, thus, making schools responsive to the context of diverse environments. Transparency and accountability also describe the network of leadership and governance that schools establish. Decisions, action plans, and results are the responsibility of the school management, together with stakeholders.

Stakeholder Participation. Engaging the community promotes the strengthening of organizational support. Through this principle, collective ownership of improvement efforts is shared between the school and the stakeholders, and collaboration to address concerns is encouraged. The school community organizes, mobilizes, and manages resources to foster a high level of commitment toward achieving improved learning outcomes.

Excellence. This principle focuses on the improvement of people and organizations to support learners in becoming holistically developed individuals. Excellence also applies to the sustained efforts to put in place effective school practices and efficient processes.

Additionally, the pillars outlined in the DepEd's Basic Education Development Plan²³ also serve as guiding principles with which SBM is also aligned. These pillars are as follows:

Access. All school-age children, out-of-school youth, and adults accessed relevant basic learning opportunities.

Equity. Disadvantaged school-age children and youth, and adults benefited from appropriate equity initiatives.

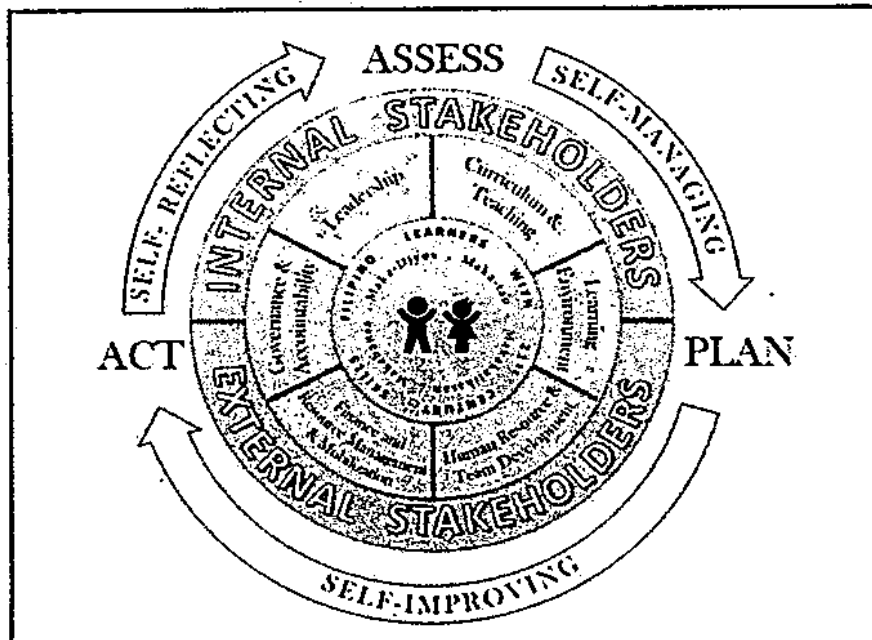

Quality. Learners complete K-12 basic education, having successfully attained all learning standards that equip them with the necessary skills and attributes to pursue their chosen paths.

Resiliency and Well-being. Learners are resilient and know their rights, and have the life skills to protect themselves and exercise their education related rights, while being aware of their responsibilities as individuals and as members of society.

²³ Department Order (DO) No. 024, s. 2022, Adoption of the Basic Education Development Plan 2030

B. Conceptual Framework

Figure 1. SBM Conceptual Framework

The framework shows the active involvement of school-community stakeholders in SBM practice. These internal and external stakeholders observe self-reflection, self-management, and self-improvement to influence the sustainable development of the various dimensions of school operations. As these school dimensions are improved, the achievement of higher learning outcomes is realized, and Filipino learners are developed with the necessary 21st-century skills. Explicit in this SBM framework and consistent with the education plan of the Department, *"Filipino learners are envisioned to be holistically developed in basic education, acquiring 21st-century skills that will enable them to manage oneself, build connections, inquire, innovate, stay nimble, and serve beyond self. They must take pride in Filipino national identity and nationhood and aspire to flourish and have life skills, economic prosperity, socio-political stability, unity in diversity; be responsive, competitive; and live in a sustainable world by upholding the core values: Maka-Diyos, Makatao, Makakalikasan, at Makabansa."*²⁴

Alongside the school strategic planning process and active stakeholder engagement is an established school monitoring and evaluation which is integral to effective and inclusive school-based management and embedded in all phases of the SBM practice. This shall encourage self-assessment and, consequently, self-improvement which is essential in becoming responsive organizations.

²⁴ Department Order (DO) No. 24, s. 2022, Adoption of the Basic Education Development Plan 2030

The following areas in school operations, defined as SBM dimensions, shall be enhanced to produce ideal Filipino learners and to achieve organizational success:

Curriculum and Teaching. School personnel and stakeholders work collaboratively to enhance learning standards to continually build a relevant and inclusive learning community and achieve improved learning outcomes.

Learning Environment. The school and its community work collaboratively to ensure equitable access to a learner-centered, motivating, healthy, safe, secure, inclusive, resilient, and enabling learning environment and to achieve improved learning outcomes.

Leadership. School personnel and stakeholders are empowered and actively engaged in taking on appropriate leadership roles and responsibilities to continuously improve the school for improved learning outcomes.

Governance and Accountability. The school and its community come together to take responsibility for ensuring participation, transparency, and accountability, as well as the implementation of a plan to continuously improve the delivery of basic education services, organizational health, and performance for improved learning outcomes.

Human Resource and Team Development. School personnel collaborate to continuously improve individual capabilities and team capacity to create an environment that shall yield high performance for improved learning outcomes.

Finance and Resource Management and Mobilization. The school judiciously manages and mobilizes resources to support programs, projects, and activities that contribute to the improvement of learning outcomes.

C. Degree of Manifestation of SBM Practice

The degree by which the SBM practice is manifested by schools provides a basis for their continuous improvement. Schools are encouraged to use the results of their self-assessment as input to their strategic and implementation plans.

| Degree of Manifestation | Description |
|-------------------------|---|
| Always manifested | An SBM indicator is <i>consistently</i> observed and achieved <i>at all times</i> |
| Frequently manifested | An SBM indicator is <i>most of the time</i> observed and achieved |
| Rarely manifested | An SBM indicator is <i>sometimes</i> observed and achieved |
| Not yet manifested | An SBM indicator is <i>neither</i> observed <i>nor</i> achieved |

All schools shall endeavor to *frequently* manifest or *always* manifest school practices and learning outcomes expressed as SBM indicators in the self-assessment checklist.

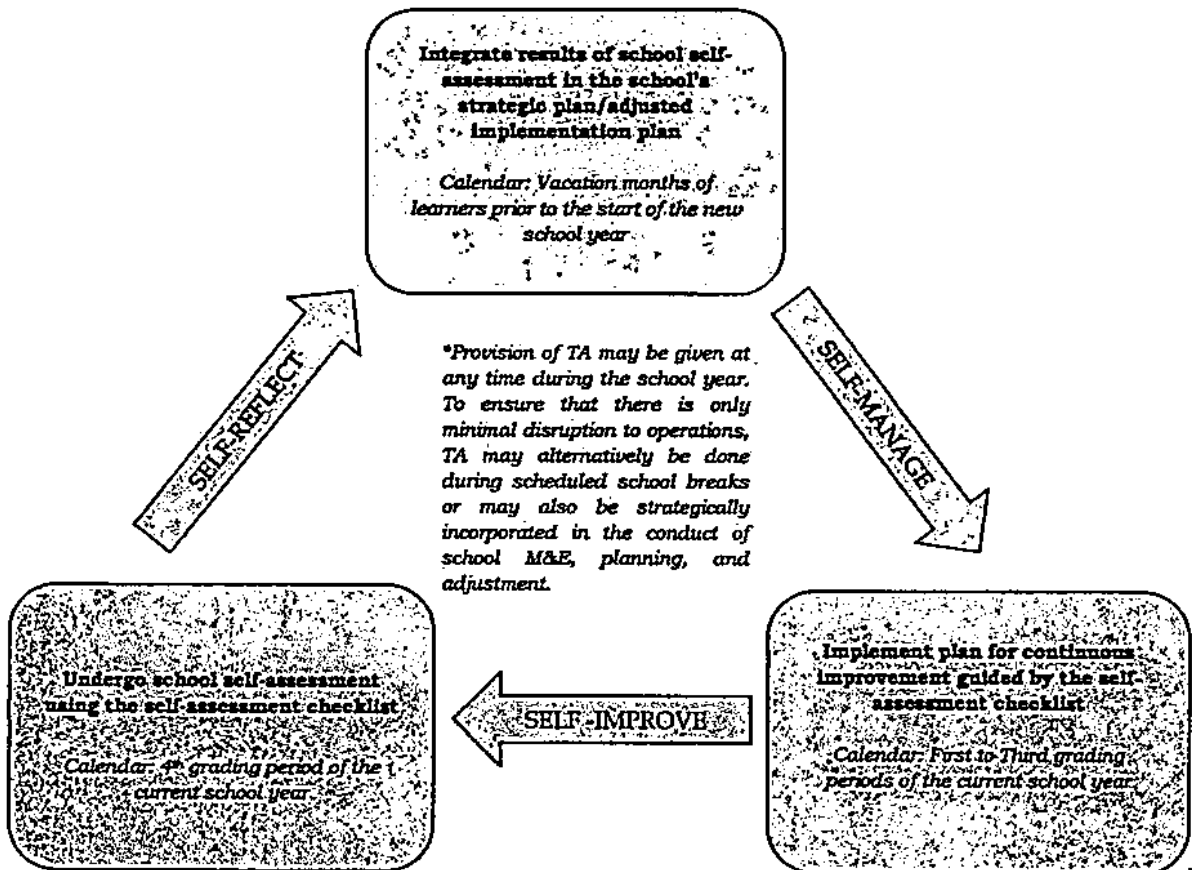

D. SBM Self-Assessment

The purpose of the school's self-assessment using the SBM Self-Assessment Checklist (see Annex A) is for continuous improvement. The continuous improvement reached by a school is the intrinsic reward for implementing school-based management.

1. Self-Assessment and Technical Assistance (TA) Calendar

Self-assessment is embedded as a process resulting from school management and operations. Therefore, schools may undergo self-assessment as many times as deemed necessary. This policy, however, recommends and encourages schools to observe a calendar (refer to Figure 2) for the conduct of Self-Assessment and provision of Technical Assistance.

Figure 2. Self-Assessment and Technical Assistance Calendar

2. Essential Steps in the Conduct of Self-Assessment by Schools and Provision of Technical Assistance by the SDOs

STEP 1. The school undergoes self-assessment. This step is ideally done during the *fourth grading period of the current school year.*

- a. The school refers to the SBM Self-Assessment Checklist (see Annex A) to guide its process of continuous improvement.
- b. The school invites its internal and external stakeholders to participate in the self-assessment which includes an analysis of observed school practices and achieved learning outcomes stated as SBM indicators in the self-assessment checklist.

STEP 2. The school integrates the results of its self-assessment in its strategic plan as identified improvement areas and in the (adjusted) implementation plan as a school program, project, or activity for continuous improvement. This step is recommended to be done during the *vacation months of learners prior to the start of the new school year.*

STEP 3. The school implements its plan for continuous improvement of practices and learning outcomes. This step is suggested to be done during the *first to third grading periods of the current school year.* During this period, the school also:

- a. Monitors its progress.
- b. Undergoes subsequent self-assessments as deemed necessary.
- c. Arranges an invitation to its SDO to provide technical assistance. The school and its SDO ensure that classes and regular operations are not disrupted.
 - c.1. The school establishes its context with the SDO based on the results of progress monitoring and the status of SBM implementation.
 - c.2. The SDO recommends specific courses of action that are appropriate to the school's current status and context.
 - c.3. The school and SDO agree on priority improvement areas in the various SBM dimensions.

After all the steps have been observed, the school goes back to STEP 1 and conducts another self-assessment for continuous improvement.

E. Documentary Requirements

Relative to the implementation of SBM, the prior practice of attaching various means of verification as documentary evidence to attest to the level of practice is no longer necessary.

On the other hand, the SBM Self-Assessment Checklist shall be accomplished as a record of the status of SBM implementation and continuous improvement of schools. It shall also serve as the basis for the provision of technical assistance from the Schools Division Offices. Agreements between the school and its SDO shall be documented in the *Remarks* column of the checklist.

F. Roles and Responsibilities of the Different Governance Levels

Recognizing that continuous improvement through the implementation of SBM is a shared goal of the Schools and community, SDOs, ROs, and the Central Office, the following provisions enumerate the roles and responsibilities across governance levels.

- 1. The School.** Together with its internal and external stakeholders, the school strengthens its intrinsic motivation to continuously improve practices, processes, and learning outcomes through the implementation of school-based management.

The school head shall assume the role of the **School SBM Coordinator** or the focal person. Consistent with the condition in the PPSSH, *"School heads have the authority, responsibility, and accountability for taking care of people in schools (people effectiveness) while maximizing organizational performance and health (school effectiveness) by setting the direction of schools, managing their systems and processes, promoting quality teaching and learning, nurturing themselves and others and engaging stakeholders in initiatives towards the improvement of school communities."*²⁵

The function of the school head as the SBM focal person **shall not be delegated nor reassigned**, especially to any teaching personnel.

- 2. Schools Division Office.** The SDO is responsible for providing technical assistance and extending guidance to schools in their process of self-improvement. It is also responsible for ensuring that the results of self-assessment consistently capture the realities of schools. More importantly, the SDO shall capacitate its schools as they target improvements in the different SBM dimensions.

²⁵ Department Order (DO) No. 024, s. 2020, National Adoption and Implementation of the Philippine Professional Standards for School Heads 

The SDOs create and mobilize a Division Field Technical Assistance Team (DFTAT) to allow for a more comprehensive and holistic approach to guide and assist schools. The Team is composed of focal persons coming from the different units within the two functional divisions of the SDO. **The Team is led by the School Governance and Operations Division (SGOD)** and its membership is based on the specializations necessary in providing targeted support to improve the SBM dimensions. It is at the discretion of the Office of the Schools Division Superintendent (OSDS) to approve the final composition and size of its DFTAT, but at the minimum, **the Division SBM Coordinator, who is a Senior Education Program Specialist from the SGOD-School Management Monitoring & Evaluation (SMME) unit**, shall be a member of the said Team.

3. **Regional Office.** The RO is responsible for ensuring that its SDOs are capacitated in providing technical assistance to schools. The RO assesses and evaluates the appropriateness of the technical assistance which SDOs provide.

The ROs create and mobilize a Regional Field Technical Assistance Team (RFTAT) to allow for a more comprehensive and holistic approach to guide, assist, and capacitate SDOs. The Team is composed of focal persons coming from the different functional divisions of the RO. **The Team is led by the Field Technical Assistance Division (FTAD)** and its membership is based on the specializations necessary in providing various support to continuously improve the SBM dimensions. It is at the discretion of the Office of the Regional Director (ORD) to approve the final composition and size of its RFTAT, but at the minimum, **the Regional SBM Coordinator, who is an Education Program Supervisor from the FTAD**, shall be a member of the said Team.

4. **Central Office.** The CO is responsible for directly capacitating and providing technical assistance to its immediate counterparts in the Regional Offices. Whenever necessary, it shall also accord the same support to the SDOs and schools, provided that proper arrangements and coordination have been established with respective Regional Offices.

The Central Office, through the **Bureau of Human Resource and Organizational Development - School Effectiveness Division (BHRD-SED)**, shall lead in the promotion and institutionalization of SBM and its support processes and mechanisms across governance levels. The BHRD-SED shall also ensure that proper cascading strategies are employed, communication lines are maintained, duplication of efforts is avoided, and efficiency in the performance of duties is advocated.

For the purpose of policy development, the BHRD-SED, in collaboration with various DepEd offices and units, shall develop a mechanism for rewards and recognition for schools.

G. Monitoring and Evaluation (M&E)

Consistent with the DepEd Order (DO) No. 029, s. 2022, the *Adoption of the Basic Education Monitoring and Evaluation Framework*, SBM as an enabling mechanism

shall empower education leaders and managers to practice participative and inclusive management processes.

At the **school level**, the school head leads the monitoring and evaluation of the continuous improvement of the various SBM dimensions through the process of self-assessment. The results of the self-assessment shall be incorporated into the school's strategic and implementation plans.

At the **SDO level**, the SGOD-SMME and the DFTAT shall conduct monitoring in terms of compliance with the SBM implementing guidelines. The SDO shall further conduct a process evaluation to determine, analyze, and address common challenges of schools in their observance and achievement of school practices and learning outcomes expressed as SBM indicators.

The M&E results shall be utilized by the SDOs to continuously improve their provision of technical assistance to schools.

At the **RO level**, the FTAD and the RFTAT shall conduct monitoring in terms of compliance with identified roles and responsibilities of the SDOs. The ROs shall further conduct a process evaluation to determine, analyze, and address the common challenges of their SDOs in providing appropriate guidance and assistance.

The M&E results shall inform ROs on how to further enhance their provision of appropriate guidance and assistance to their SDOs.

Moreover, the **BHROD-SED** shall monitor the compliance with identified roles and responsibilities of their direct counterparts in the Regional Offices. In coordination with SDO-SGOD and RO-FTAD, the BHROD-SED shall conduct periodic program monitoring to determine bottlenecks and gather feedback regarding the areas for improvement of policy implementation.

With respect to the policy development process, a periodic review once every after three (3) fiscal years of the DepEd Order shall also be commenced to continuously enhance the guidelines.

H. Repealing Clause

DepEd Order (DO) No. 083, s. 2012 entitled "Implementing Guidelines on the Revised School-Based Management (SBM) Framework, Assessment Process, and Tool (APAT)," and all other issuances inconsistent with this Order and their provisions are repealed, rescinded, or amended accordingly.

I. Effectivity and Transitory Provisions

This Order shall take effect fifteen (15) days after its publication in the Official Gazette or a newspaper of general circulation. This shall be registered with the Office of the National Administrative Registrar (ONAR) at the University of the Philippines (UP) Law Center, UP Diliman, Quezon City.

All Public Schools, SDOs, and ROs shall be given a three-year transitory period during which they shall familiarize themselves with the revised SBM implementation guidelines. In addition to understanding the principles guiding the SBM framework and getting accustomed to the implementation arrangements, the following shall be observed:

1. Schools shall develop a plan ensuring that their internal and external stakeholders also become well-informed about the revised guidelines. In the first year of implementation, they are highly encouraged to subject themselves to the SBM self-assessment process using the SBM self-assessment checklist (See Annex A).

In the succeeding years, schools shall continue observing the process of continuous improvement and determine the degree of manifestation of the school practices and learning outcomes referred to as SBM indicators.

2. SDOs shall institute a TA plan for schools. The design of the plan shall be aligned with the self-assessment checklist. They shall also plan for the strategic conduct of technical assistance to their schools relative to the SBM self-assessment and technical assistance calendar.
3. ROs shall revisit their strategies for providing TA to their SDOs. They shall also come up with a TA plan for their SDOs and develop a regional implementation plan which is aligned with the national implementation plan. The conduct of TA shall strengthen the SDO's capacity and competency to provide appropriate assistance and support.
4. The DepEd Central Office, through the BHROD-SED, shall conduct national orientations and capacity-building activities and shall inform field implementers of the national implementation plan for the institutionalization of the SBM.

GUIDELINES ON THE DELIVERY OF TECHNICAL ASSISTANCE TOWARDS IMPROVED SCHOOL-BASED MANAGEMENT (SBM) PRACTICES

1. Pursuant to DepEd Order No. 83, s. 2010, Implementing Guidelines on the Revised School-Based Management (SBM) Framework, Assessment Process and Tool (APAT) and with the issuance of DepEd Memorandum No. 75, s. 2022, which stipulated Moratorium on the Conduct of Division and Regional School-Based Management Validation Activities, this Office hereby inform the SDOs to ensure that schools continuously implement SBM and the provision of technical support. It is expected that TA providers both from the Region and SDOs adhere to the guidelines attached herewith.
2. The guidelines aim to:
 - a. establish a mechanism on the delivery of technical assistance for the improvement of SBM practices in NCR,
 - b. support the implementation of SBM following the existing DepEd issuances; and
 - c. assist SDOs in providing technical assistance for continuous improvement of school practices and processes.
3. These guidelines shall be effective upon issuance and remain in force and in effect until a new guideline is issued to the field.
4. For clarifications, kindly coordinate with Maria Laarni Carla C. Paranis, Regional SBM Coordinator, through email at maclalaan@lucela.paranis@deped.gov.ph.

IV. OPERATIONAL GUIDELINES

A. GUIDING PRINCIPLES OF TECHNICAL ASSISTANCE

The provision of technical assistance is based on the following guiding principles:

1. Technical assistance is aligned with the organization's vision and mission and is based on the organization's needs.

Technical assistance is provided in support of the organization's vision and mission. It ensures that the individuals always refer to the organization's vision, mission, and goals as identified in the School Improvement Plan (SIP) which is based on the organization's needs.

However, the schools have to recognize their need for help to become more effective in their quest for continuous improvement. School Heads and individuals, therefore, have to seek technical guidance and support to be able to achieve their goals.

2. People are responsible for their own growth and development.

People in organizations can set their own goals and achieve them. Technical assistance provides the individuals the atmosphere or environment to help them achieve their set goals and find ways and resources to achieve them. Individuals just have to be provided with opportunities to express themselves freely, explore new ideas or concepts and commit mistakes without fear of reprimand. This way each organization becomes accountable for its own growth and development.

3. Learning is a cooperative and collaborative process.

Learning is best achieved when members work together and share ideas toward a common goal. It entails interactive interdependence which is an important principle of adult learning.

Technical assistance is a two-way process and shared responsibility. While the TA providers offer suggestions, decision-making and actions are the responsibilities of the school.

3. **Consulting.** It refers to action or process of formally or informally meeting with an expert or TA provider to seek assistance.
4. **Training.** It refers to teaching and providing learning opportunities to build skills and knowledge based on specific, well-defined objectives.
5. **Networking.** It refers to the creation of a systematic or collaborative approach to managing technical assistance services that strengthen partnerships and leverages resources for a program.

F. Platform for Conducting Technical Assistance

- a. **Online/ Virtual**
- b. **Face-to-Face (School Visits/Benchmarking Activities)**
- c. **Hybrid/ Hyflex (LAC, INSET Planning Meetings)**

V. MONITORING AND EVALUATION

The Department of Education – National Capital Region, through the Field Technical Assistance Division (FTAD), shall review and evaluate the delivery of technical assistance towards improvement of SBM practices of public schools. Continuous gathering of feedback on the implementation of the guidelines shall regularly done by FTAD. The result of the monitoring and evaluation shall be the basis to further enhance the provision of technical assistance on school-based management.

Evaluation is a systematic determination of a subject's merit, worth and significance, using criteria governed by a set of standards. It can assist an organization, program, design, project, or any other intervention or initiative to assess any aim, realizable concept/proposal, or any alternative, to help in decision-making; or to ascertain the degree of achievement or value in regard to the aim and objectives and results of any such action that has been completed.[1] The primary purpose of evaluation, in addition to gaining insight into prior or existing initiatives, is to enable reflection and assist in the identification of future change.

A. Ways of evaluating technical assistance include the following:

- Asking questions after the intervention

- Preparing technical assistance report
- Documenting change in the divisions/schools (e.g. revised policies and procedures, new program developed and implemented)
- Tracking of Technical assistance provided to Division and Schools o as to follow-up actions needed and whether such actions were taken.
- Tracking report needs to be validated by the Schools Division Superintendent.
- Measuring impact on the implementation of the technical assistance using M and E tools
- Surveying stakeholders' satisfaction with the change resulting from the delivery of technical assistance.

B. Steps in Planning Evaluation

- Designate an Evaluation Team.
- Specify TA goals and objectives
- Formulate evaluation questions related to the TA goals and objectives
- Formulate outcomes of TA
- Design a formative and summative evaluation plan
- Establish a system of organizing data
- Analyze data
- Report the results

B.1 Evaluation Steps in Detail

1. Designating an evaluation team (which should select school reps; division reps and an external evaluator)
2. Specify clear TA goals and objectives since this will serve as a source as an assessment of the progress made towards meeting those goals and objectives.
3. Formulate evaluation questions that should reflect: client satisfaction with the TA services; effectiveness of the TA services to accomplish goals and objectives; determining the outcomes of TA. To exemplify:
 - Were the schools satisfied with the TA services?
 - Did the school accomplish the TA goals and objectives?
If yes, which goals and objectives? If not, which goals and objectives?
How effective were the TA services in achieving the TA goals and objectives?
What factors influenced the effectiveness and outcomes of TA services, including possible unintended outcomes?

4. Formulate outcomes of the TA relationship to the focused areas which can be assessed through (as discussed by Suarez, Allis and Seppanen, 1991):
 - Impacts on the internal capacity of schools in terms of building knowledge, skills, and perspectives of personnel;
 - Changes in the internal processes of the schools, such as improving data collection
 - Effects on school outcomes in terms of key performance indicators
 - The accomplishment of TA goals and objectives
6. Design a formative and summative evaluation plan that supplements the Division Evaluation Plan
7. Collect the best data relevant to the evaluation questions and Organize the same to further determine relevance to the evaluation questions. Determine evaluation approach (success case method or most significant change)
8. Analyze the data using a mixed method approach (quantitative/qualitative) considering the type of data collected and the purpose of analyses.
9. Prepare a report of the results that should be applied for continual improvement within the organization.

So evaluation can be formative, that is taking place during the development of a concept or proposal, project, or organization, with the intention of improving the value or effectiveness of the proposal, project, or organization. It can also be summative, drawing lessons from a completed action or project or an organization at a later point in time or circumstance

B.2 Example of an Evaluation Plan
