Greetings!

We are overwhelmed by the confirmation of the Honorable Secretary Sonny Angara to be the Keynote Speaker to deliver the "Inspirational Message" at the Vision and Learning Conference on March 28, 2025, at Kalayaan Hall, Club Filipino, Greenhills, San Juan. The highlight of the training is on the "Visual Secrets for School Success" by renowned author Dr. Brenda Montecalvo of Ace Vision Academy USA. It is a proven method that helps students read faster with good comprehension. It improves handwriting, spelling, composition, math, and reading when the right visual skills are developed with optometric vision therapy. Once they are developed students often need to be coached on using the new visual skills when learning. Visual Secrets for School Success contains proven methods that help students read faster with good comprehension, improve handwriting and composition skills, spell better, and complete difficult math problems in less time.

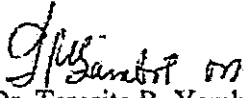

We would appreciate it if your office can facilitate the following:

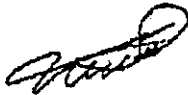

1. DepED National Capital Region selected participants (teachers and health care providers of public and private schools) be encouraged to attend by providing them permission to physically attend the conference. Please provide us with a list of participants by March 7, 2025.
2. Permission to post in social media the highlights of the conference.

For more details email us at fdmvisioncare@gmail.com or contact our secretariat c/o Merly Aquilar at 0928 161 1409.
